

**ADVANCED AMBROTOSE®
(SKU #37001)
PRODUCT TRAINING SHEET**

PRODUCT BASICS

PRODUCT DESCRIPTION: Advanced Ambrotose capsules build on the solid, scientific foundation of Ambrotose® powders and offers a version that is kosher, vegan friendly and enriched with additional nutrients like Wakame (*Undaria pinnatifida*). This mighty, edible, brown algae has been used for thousands of years in Chinese and Ayurvedic (Indian) traditional usage and known for promoting immune health.*

BENEFITS:

- Supports your immune system, as well as proper organ function.*
- Helps support proper digestive system function.*
- Promotes gastrointestinal health.*
- Supports immune system modulation.*
- Contains beta-carotene and plant fibers for immune system health.*
- A source of dietary and soluble fiber.
- Supports cell-to-cell communication through a blend of specific plant saccharides called Glyconutrients.*
- Contains Manapol which helps enhance the absorption of vitamins C and E.*

FEATURES:

- Naturally gluten-free
- Suitable for vegetarians
- Suitable for vegans
- Low glycemic
- Kosher
- Patented formulation
- Free from soy, dairy, preservatives, artificial colors
- Contains naturally-sourced ingredients

SUPPORTING INFORMATION:

Why Ambrotose? Ambrotose is a rich blend of prebiotics, soluble fibers and naturally-sourced Glyconutrients, including our exclusive Manapol® powder - the highest-grade, 100% pure, Aloe ingredient on the planet.

Mannatech created Ambrotose 20 years ago to offer a product that is scientifically shown to help promote good health.* With proper nutrition and cell-to-cell communication support, this product offers immune, organ and digestive support.*

Mannatech has invested millions of dollars into research and validation in developing Ambrotose products. Numerous studies have been published in peer-reviewed journals about Ambrotose powders.

WHAT MAKES THIS PRODUCT SPECIAL?

WHO IS IT FOR?

- For those looking for an alternative to the powder, Advanced Ambrotose capsules allow you to take without mixing with water or juice. This can be more convenient for those on-the-go or traveling often.

TOP FAQ:

1. What is Manapol powder and why is it such an important ingredient in Advanced Ambrotose?

Manapol is the trademark name for the world's only standardized and stabilized Aloe vera extract. The Manapol Mannatech uses to formulate Ambrotose Advanced capsules is the most abundant, natural source of acetylated mannans (Acemannan) in the world. It's this unique extract which provides superior support for cellular communication, immune and digestive functions.* Specifically, Manapol is the only commercially available Aloe vera ingredient to contain the broad spectrum of mannans up to and including Acemannan which is defined as 1-2 million Daltons.

2. What is a Dalton and why is it important?

The Dalton is a unit to show molecular weight. For Acemannan, the 1-2 million Dalton definition was set forth by CAS and USAN.[†]

3. What is Acemannan?

Mannatech's Manapol contains a key active ingredient named Acemannan, known to many as the functional component of the Aloe vera plant, sourced from the inner leaf gel. Acemannan contains a long chain sugar (known as a saccharide) that is utilized by the cell membrane for support of cellular recognition and communication. This is what makes the Manapol in Ambrotose LIFE[®] so effective and has been scientifically linked to helping improve immune response and cellular metabolism.*

4. How does Acemannan affect the body?

Acemannan is the key Glyconutrient and active component in Aloe vera. Scientific studies have shown its benefits on a cellular level, as well as supporting the body's immune and digestive systems.*

DIRECTIONS:

Take two capsules twice daily with 8 oz of water or juice.
